

Whitespaces.java

```
1 public class Whitespaces {  
2  
3     public static void main(String[] args) {  
4         String sentence = "T   his is b ett   er.";  
5         System.out.println("Original sentence: " + sentence);  
6  
7         sentence = sentence.replaceAll("\\s", "");  
8         System.out.println("After replacement: " + sentence);  
9     }  
10 }
```

Output

```
Original sentence: T   his is b   ett   er.  
After replacement: Thisisbetter.
```

```
